

Program Description

The Bachelor of Science in Applied Sciences program offers a dynamic and multidisciplinary education tailored to those passionate about applying scientific principles to real-world challenges. Rooted in a robust foundation of core courses encompassing chemistry, physics, biology, and mathematics, this program encourages students to explore the intersections of various scientific disciplines. Through hands-on laboratory work, field studies, and collaborative projects, students gain practical experience in problem-solving and critical thinking, preparing them for diverse career paths in industries such as biotechnology, environmental science, healthcare, and beyond. With opportunities for specialization, industry-relevant internships, and a focus on technology integration, graduates emerge as versatile and well-rounded professionals equipped to make meaningful contributions in today's rapidly evolving world.

Entry Requirements:

MSCE Certificate or its equivalent with at least six credit passes including English, Mathematics, Biology and Physical Science or Chemistry and Physics.

A level certificate with minimum grade of C in English, Mathematics, Biology, Chemistry and Physics will be considered for entry at second year.

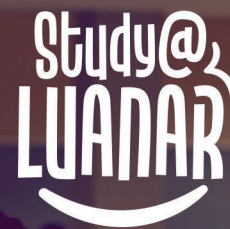

DURATION: 4 YEARS
CAMPUS: NRC

Bachelor of Science in Applied Sciences
