

Program Description

The BSc Biotechnology program equips students with a holistic understanding of molecular biology and biotechnological applications across diverse sectors such as agriculture, medicine, and forensics. Emphasizing practical skills, teamwork, and communication, the curriculum blends face-to-face instruction with digital learning methods like Emergency Remote Teaching and Learning (ERTL) amidst COVID-19 measures. Lectures cover theoretical foundations while laboratory sessions focus on hands-on experimentation. Through coursework, including case studies, tutorials, and fieldwork, students gain proficiency in biotechnological concepts and techniques. With a strong emphasis on competence and application, graduates are prepared for careers in industry, consulting, government, or academia, contributing to advancements in various fields.

Entry Requirements:

MSCE Certificate or its equivalent with at least six credit passes including English, Mathematics, Biology and Physical Science or Chemistry and Physics.

A level certificate with minimum grade of C in English, Mathematics, Biology, Chemistry and Physics will be considered for entry at second year.

DURATION: 4 YEARS
CAMPUS: BUNDA COLLEGE

Bachelor of Science in Biotechnology

Knowledge | Innovation | Excellence
