

Program Description

The Bachelor of Science in Gender and Development addresses the evolving landscape of gender issues within Malawi's economic systems and individual lives, crucially ensuring a skilled workforce continuity. Developed collaboratively by the Ministry of Gender, Community Development and Social Welfare and LUANAR, this program meets the demand for specialized personnel to foster gender mainstreaming. With a multidisciplinary curriculum spanning Human and Community Sciences, Social Work, Nutrition, Agriculture Economics, and more, students gain comprehensive expertise. This face-to-face program offers flexibility for open, distance, and e-learning, preparing graduates for diverse roles in government ministries, NGOs, and development agencies tackling gender-related projects. Through industrial placements and research projects, students acquire practical skills for impactful contributions to their communities and beyond.

Entry Requirements:

MSCE Certificate or its equivalent with at least six credit passes including English, Mathematics, Biology and Physical Science or Chemistry.

A level certificate with minimum grade of C in English, Mathematics, Biology, and Chemistry will be considered for entry at second year.
