

Program Description

The Bachelor of Science in Nutrition and Food Science (BNFS) programme embodies Malawi's commitment to addressing nutritional challenges at both local and global levels. With a strategic focus on producing skillful nutritionists and food science professionals, this program equips students with interdisciplinary expertise crucial for addressing complex food and health issues. Graduates can get important jobs in public and private sectors, international groups, and communities. The curriculum emphasizes critical thinking, policy interpretation, and program design to foster holistic solutions for enhancing human well-being and national development. Through rigorous training and a love for continual learning, graduates emerge as influential advocates shaping the future of nutrition and food security.

Entry Requirements:

MSCE Certificate or its equivalent with at least six credit passes including English, Mathematics, Biology and Physical Science or Chemistry and Physics).

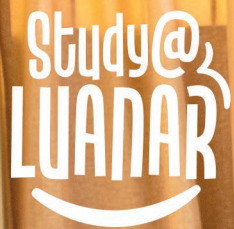

A level certificate with minimum grade of C in English, Mathematics, Biology, Chemistry and Physics will be considered for entry at second year.
