## Program Description

The Bachelor of Science in Agricultural Technology program is designed to equip students with the knowledge and skills necessary to address the modern challenges and achievements in the agricultural sector. Through a comprehensive curriculum, students focus in areas such as crop science, soil management, animal husbandry, agricultural economics, and sustainable agricultural practices. Throughout the program, students engage in hands on learning experiences, fieldwork, and laboratory sessions to gain practical insights into agricultural processes and technologies such as precision agriculture, biotechnology, and agricultural engineering, preparing them to adapt to the evolving landscape of agriculture.

## Entry Requirements:

MSCE Certificate or its equivalent with at least six credit passes including English, Mathematics, Biology and Physical Science or Chemistry and Physics.

A level certificate with minimum grade of C in English, Mathematics, Biology, Chemistry and Physics will be considered for entry at second year.

**DURATION: 4 YEARS**  
**CAMPUS: NRC**

A photograph of two students, a man and a woman, wearing white lab coats and safety goggles. They are working together in a laboratory setting, with the man holding a test tube and the woman looking on. The background is slightly blurred, showing laboratory equipment.
