#ChooseLUANAR

## Program Description

The program provides students with a comprehensive understanding of the agricultural industry, combining business principles with agricultural science. Through a blend of coursework, hands-on experiences, and industry internships, students develop the skills needed to manage agricultural enterprises efficiently and sustainably. The curriculum covers a range of topics, including agricultural economics, marketing, finance, supply chain management, and agricultural policy. Students learn how to apply business concepts to real-world agricultural challenges. Graduates are equipped to contribute to the sustainable development and profitability of agricultural enterprises in a rapidly evolving global market.

## Entry Requirements:

MSCE Certificate or its equivalent with at least six credit passes including English, Mathematics, Biology and Physical Science or Chemistry and Physics.

A level certificate with minimum grade of C in English, Mathematics, Biology, Chemistry and Physics will be considered for entry at second year.
