

Program Description

This is a 4-year program that provides a comprehensive understanding of the natural environment and the impact of human activities on it. Students study a range of subjects, including ecology, biology, chemistry, and geology, gaining a deep understanding of environmental issues and solutions. Through hands-on fieldwork, laboratory work, and research projects, students develop the skills to analyze environmental problems and develop sustainable solutions. The program emphasizes critical thinking, problem-solving, and communication skills, preparing graduates for careers in environmental science, conservation, policy, and education. Graduates are equipped to address complex environmental challenges and contribute to a more sustainable future.

Entry Requirements:

MSCE Certificate or its equivalent with at least six credit passes including English, Mathematics, Biology and Physical Science or Chemistry and Physics.

A level certificate with minimum grade of C in English, Mathematics, Biology, Chemistry and Physics will be considered for entry at second year.

DURATION: 4 YEARS
CAMPUS: BUNDA / NRC

Bachelor of Science in Environmental Science
